Introducing the Unloader One® with SmartDosing Boa technology. Recent clinical research by the Steadman Philippon Research Institute demonstrated that the Unloader One decreases pain, improves function and reduces the usage of pain medication.*

**STEADMAN PHILIPPON RESEARCH RESULTS**

At 6 months, the below percentages of patients reported a reduction in medication use:

- **25%** of patients reported a reduction in pain medications.
- **31%** of patients reported a reduction in OTC anti-inflammatories.
- **35%** of patients reported a reduction in prescription anti-inflammatories.
- **16** point improvement in WOMAC.

*A clinically proven treatment option for unicompartmental osteoarthritis of the knee and its associated pain.*

---

Unloader One® has several new features designed to increase patient compliance. Strap tension is easily adjusted with the SmartDosing® dial and comfortable Doeskin liners are now available for the thigh cuff.

THE MOST CLINICALLY PROVEN OA BRACE
WITH A NEW TWIST.

SMARTDOSING® MAKES IT EASY.
SmartDosing, powered by Boa® Technology, provides patients with a simplified, single-hand dosing dial for on-the-fly adjustability of the dual Dynamic Force Straps (DFS), helping them better manage their unicompartmental OA knee pain.

COLOR-CODED BUCKLES
Color-coded Quick Fit Buckles simplify application and removal.

DOESKIN LINERS
Breathable liners, with doeskin thigh and Össur Sensil® Silicone calf liner, improve comfort and reduce migration, helping to ensure patient compliance.

HOW IT WORKS
The Unloader One uses dual Dynamic Force Straps (DFS) to apply a gentle force designed to reduce pressure on the sensitive bony surfaces of the knee, resulting in a reduction in pain and an increase in the wearer’s mobility.

The best just got better!
