AFO DYNAMIC

The AFO Dynamic provides a strong, lightweight solution for patients with varying degrees of drop foot secondary to a variety of neurological conditions. Össur has taken the carbon fiber technology from its Flex-Foot® product and incorporated it into the new AFO Dynamic to provide increased support over traditional ankle foot orthoses. The energy storing properties of carbon fiber make it an ideal material for this dynamic ankle foot orthosis because it provides real energy return. Best for those people leading busy lives, the AFO Dynamic will ensure a more efficient walk for the user.
