

LIVINGSKIN™

OVERVIEW

A Livingskin prosthesis is designed to be unnoticed.

Hand crafted from high definition silicone and hand painted to match skin tone and appearance, our Livingskin prostheses are very realistic. We take care to ensure that the detail of these prostheses is remarkable, introducing features such as freckles and hair.

In addition to the realistic appearance of our Livingskin products, it is important to remember that passive prostheses like these still have important functional capabilities. This includes actions such as pushing, pulling, stabilizing, supporting, light grasping and typing.
