PROPRIO FOOT®
Because the world isn’t flat
The new Proprio Foot adapts to varied terrain 60% faster than the previous model, helping users walk naturally and comfortably on a variety of everyday terrain, including stairs and ramps. It also features 4° of active swing phase dorsiflexion, contributing to a 70% reduction in falls.

The power of Pro-Flex.
The new Proprio Foot is built on a Pro-Flex LP foundation. As a result, it delivers a 44% increase in toe-off power and a 23% increase in ROM (of the underlying carbon fiber foot) over the previous model. It also provides reduced sound side loading.

The best Proprio Foot yet

Össur Logic just got a premium upgrade

The new Proprio Foot features an upgraded Össur Logic app that enables professionals to easily set up Proprio Foot, adjust the functionality for each user and access valuable activity reports.

A new, enhanced user interface lets users quickly check their battery charge and step count, plus adjust ankle alignment to accommodate a variety of everyday footwear (up to 2” (5 cm) of heel height).

NOTE: Össur Logic is available for iOS devices (iOS 10.0 or later) and pairs via Bluetooth. It can be downloaded free of charge from the App Store.

Jon DeChambeau, a former professional golfer and the father of pro golfer Bryson DeChambeau, has experienced a variety of physical complications due to diabetes, including visual impairment, a kidney transplant, the partial amputation of his right foot (for which he uses a custom AFO) and, most recently, the full amputation of his left foot below the knee. Proprio Foot provides the safety, stability and dynamics Jon needs to do the activities he enjoys.

Proprio Foot

Because the world isn’t flat

Introducing a whole new Proprio Foot. In redesigning Proprio Foot, we first enhanced the safety and stability features that made the original so great for low-to-moderately active users in the first place. Next, we incorporated a Pro-Flex LP foot module to provide 44% more toe-off power. Add usability improvements — like single-button functionality and an integrated battery — and we’re one giant step closer to our goal.
THE NEW PROPRIO FOOT

INDICATIONS
• Transtibial and transfemoral amputees
• Low-to-moderate impact levels
• Maximum user weight: 125kg (275lbs)

OPTIONS
• Available in sizes 22-30, categories 1-8
• Unity available in sizes 25-30

TECHNICAL SPECIFICATIONS
• Build Height: 22-24 174 mm (6 7/8")
  25-27 180 mm (7 1/16")
  28-30 188 mm (7 3/8")
• Device weight: 1.5 kg (3.3 lbs) incl. Foot Cover

KIT OPTIONS
• PSX1XYYZ Proprio Foot with foot cover, 2 year warranty
• PSXU1XYYZ Proprio Foot with Unity and foot cover, 2 year warranty
  X: category 1-9, YY: foot size (22-30), Z: side (L/R)
