An externally powered, multi-articulating prosthetic hand with five individually powered digits and powered thumb rotation, with manual override.

- Individually motorized digits with compliant grip and stall-out ability
- Speed boost: Adjustable open/close speed for digits
- Auto-grasp: Anti drop safety feature for added reassurance
- Vari-grip: Feature for enhanced grip strength
- Multiple covering options available to suit individual lifestyles
- Titanium digits: Check out our titanium strengthened digits which increase the maximum carry load by 50%. Available in S/M/L.

METHODS OF CONTROL:

- Triggers
- Muscle control
- Quick grips™ app control
Technical Information
